Trident Technical College
Film Production
2009-2010

West Ashley High School
High School Diploma
2005-2009

Michael Delli-Gatti

Back-End Developer

PROJECTS

Market Direct

An app that allows farmers market vendors to upload photos, prices and descriptions of their inventory, and gives customers the ability to see what will be available at a farmer's market as well as add items to their own personal shopping list. The back-end was built using Spring, Hibernate, and H2 Database in IntelliJ.

Mix

An app that allows users to upload their favorite food or mixed drink recipes and up-vote or down-vote them. The top 3 recipes are displayed on the "Mix N' Match" page. The back-end is written in Java using Spring, Hibernate, and H2 Database.

BeerTracker

A simple CRUD app that allows users to upload their favorite beers, rate them, and leave a comment. Built using Spark, Mustache, and H2 database.

EXPERIENCE

Junior Back-End Developer / The Iron Yard

May 2016 - August 2016 / Charleston, SC

- Attended a full-time immersive program about back-end engineering with Java
- Worked with front-end students to develop full-stack applications
- Used git and Github for a variety of projects
- Researched online documentation to resolve issues in code or learn more
- Worked with frameworks such as Spring and Spark
- Used databases such as H2 and PostgreSQL
- Utilized test driven development
- Debugged programs to run correctly

Customer Service Staff & Baker / Publix Supermarkets

November 2009 - May 2016 / Charleston, SC

- Handled all customer relations issues in a gracious manner and in accordance with company policies.
- Supervised, trained and developed team members in accordance with company policies and procedures.
- Attained a perfect attendance record for 12 months.
- Self-managed and prioritized tasks according to business needs
